## **AFFIDAVIT**

After first being duly sworn, I, Brent Druery, do hereby state as follows:

1. I, Special Agent Brent Druery, am a duly sworn Special Agent (SA) with the Department of Homeland Security, Homeland Security Investigations, presently assigned to the Office of the Resident Agent in Charge, Gulfport, Mississippi (HSI Gulfport). I have been a Special Agent since November 2002.
2. Based upon my personal knowledge and information I have received from other law enforcement officials involved in the investigation, I am aware of the following facts:
3. HSI Gulfport is investigating Milad **KALANTARI**, an Iranian citizen residing in Iran, for numerous financial and identity theft crimes. This case was initiated following an investigation into the Yahoo Boys Criminal Organization, a West African transnational organized crime enterprise involved in numerous complex financial fraud schemes via the internet, including the use of stolen credit card information.
4. The investigation revealed that the Yahoo Boys were assisted in their schemes by Russian, Iranian, and Vietnamese cybercrime rings that are perpetuating the criminal underground economy, via the illegal sales of compromised or stolen credit card data and personal identifying information, via the internet. Investigation into the Yahoo Boys identified **KALANTARI**, utilizing the email accounts, miladrk@gmail.com and ccmilad@yahoo.com, as one of the suppliers of compromised credit card accounts and personal identifying information to the Yahoo Boys.
5. Through the course of the investigation, HSI Gulfport has executed numerous search warrants on the email accounts utilized by **KALANTARI**. Analysis of the email content revealed **KALANTARI** is the owner/operator of the websites miladccshop.biz and

miladccshop.ru. The aforementioned websites are dedicated to the sale of stolen credit card data. This includes stolen credit card data from citizens of the United States, United Kingdom, Canada, Australia, New Zealand, Italy, France, and other European countries. Analysis of the email content revealed the email accounts are being utilized to receive and distribute massive amounts of compromised credit card information and personal identifying information between **KALANTARI** and numerous co-conspirators. Analysis of the email content has also determined **KALANTARI** utilizes the email accounts to communicate with family members and conduct personnel business which has assisting in identifying **KALANTARI** as the user of the email accounts.

6. On February 8, 2013, **KALANTARI** received an online receipt from the purchase of a battery from batteryupgrade.de. The online receipt contained the following information regarding the purchase and shipping of the battery:
